

SWIFTLINK[®] 2800

MULTI-USER TACTICAL RESPONSE UNIT (TRU) FOR SECNET 54

Product Specifications

The SwiftLink[®] 2800, also known as the TRU Kit, is the next generation evolution of the Secure Deployable Node (SDN) Lite communications package. Designed to simultaneously support multiple users, the Swiftlink 2800 offers a highly secure interface that can run mission-critical data applications utilizing a single SecNet 54 encryption device. Field-proven interoperability with any ethernet based Broadband Global Area Network (BGAN) or VSAT terminal ensures maximum functionality and ease of integration. The SwiftLink 2800 has a compact, lightweight form-factor rivaling that of a standard laptop. Like the SwiftLink 2100 and SwiftLink 2300 products, the SwiftLink 2800 touts a discreet, custom ruggedized package with best-in-class components designed for portable communications, quick set-up and secure transmission. The TRU Kit advantage ensures that the Warfighter team maximizes access and is reliably equipped for demanding operations in extreme environments.

Features and Benefits

- Powered by laptop style power brick and includes a 2 1/2 hr back-up battery
- Capable of external DC injection for system power
- Built-in Ethernet switch
- Integrated SecNet 54 with multi-user support
- Secure ethernet interfaces for network operations
- Ease of storage and transport (<5 lbs) meets FAA requirements for onboard carry-on

Specifications	
Physical	Dimension: 12.08" x 10.03" x 1.15"
	Weight: 4.9 lbs
	Number of cases: one (1)
	Battery backup up to 2 1/2 hrs
Functional	2-Port Ethernet Switch
	SecNet 54 Encryption
Operational	Operational temperature: 0° to 50° C
	Storage temperature: - 40° to 70° C
	MTTR: ≤ 15 minutes (parts on hand)
	Operational availability: 99.5%
Warranty	1 year
