

# SwiftLink® 2820 Single Cellular Kit

## Seamless, Portable Communications

Smaller. Swifter. More secure. TeleCommunication Systems, Inc. (TCS) presents the SwiftLink® 2820 Single Cellular Kit providing a small, very lightweight discrete data package that can be carried in a briefcase to allow simultaneous secure and unsecure voice, video, and data to deployed users. The secure interface can run mission-critical data applications utilizing a single SecNet 54 encryption device. Cellular Card not included but can be added as an option.

## Features and Benefits

The SwiftLink 2820 Single Cellular Kit offers the following features and benefits:

- Smaller than a standard size laptop
- Integrated SecNet 54, battery, and ethernet switch
- Ease of storage and transport (at < 8 lbs, meets FAA requirements for onboard carry-on)
- Ethernet interfaces that allow for simultaneous secure and unsecure network operation
- External DC injection capability for system power
